Hi Barbara,

Please see attached the revised TK chapter. The following items remain to be addressed.

- Upload new references to HERO (e.g. Song et al, Esterbauer et al, and Tamura et al, etc.)
- Some references may not be in the list (e.g. Harekama., 1991 referred on page 7 is missing in the reference list). Also, a reference is needed for a statement made on page 8
- All references in the text need to be cross checked against the references listed

My sincere thanks to Raghu for helping me to revise the chapter.

If you have any questions, please let me know.
